Microeconomics - Exercises - with Suggested Solutions

Managerial economics, meaning the application of economic methods to the managerial decision-making process, is a fundamental part of any business or management course. It has been receiving more attention in business as managers become more aware of its potential as an aid to decision-making, and this potential is increasing all the time.

In A Journey to Sharahad, an exercise available in PDF, the participants role-play American business persons who journey to Sharahad looking for distributors. Even though both Americans and Sharahadans want to do business with each other, there are some substantial barriers present based on their cultural behaviors and communication barriers.
