

section 1 reinforcement describing pdf

Main section: Reinforcement#Operant conditioning In the behavioral sciences, the terms "positive" and "negative" refer when used in their strict technical sense to the nature of the action performed by the conditioner rather than to the responding operant's evaluation of that action and its consequence(s).

Background. Once patients express interest in discontinuing or diminishing drug use, the core of care depends on the same kinds of cognitive behavioral approaches that are used for other chronic, relapsing conditions, such as hypertension and diabetes mellitus. 1,30 These approaches include working with patients to encourage motivation to change, enhance adherence to medication through ...
